

APPENDIX D: VACMAN DATABASE FILE NAMES

The table below lists all database (DBF) and other files related to the database file.

The headings are:

File Name - name of the database file under the VACMAN directory

Other - file extension of the other type of file(s) related to the database file (CDX - index files and FPT - memo files)

Read Only - indicates if the file is updated by CDC (Yes), rather than by the Project (blank)

Backup (B)/Pack (P) - indicates VACMAN will back up (B) and/or pack (P) the file if you use the Backup and Pack Databases screen under Utilities Main Menu. Blank indicates VACMAN does not back up or pack the file

Description - type of information stored in the database file

| File Name | Other | Read Only | Backup (B)/ Pack (P) | Description |
|--------------|-------|-----------|-------------------------|-----------------------------------------------------------------------------------------------------------------------|
| ACTREF.DBF | | Yes | | Action codes for Distribution records |
| BMP.DBF | FPT | Yes | | Bitmap objects used on the Criteria screen and Alert pop-up windows |
| COMMS.DBF | | | | Modem settings |
| CRITERIA.DBF | | | B/P | Report criteria selection screen settings |
| DISTHIST.DBF | CDX | | B/P | Summary of all Distribution records. Used to keep the Project inventory correct if Distribution records are exported. |
| DISTOVER.DBF | | | B/P | Override information concerning excess distribution |
| DISTRIB.DBF | CDX | | B/P | Distribution to providers and other transactions connected to distribution (returned, expired, wasted vaccine) |
| DOSESADM.DBF | CDX | | B/P | Doses administered |
| ENROLL.DBF | CDX | | B/P | VFC-enrollment age group information |
| ENROLLSC.DBF | | Yes | | Source codes for VFC-enrollment information |

VACMAN DATABASE FILE NAMES

| | | | | |
|--------------|-------------|-----|-----|--------------------------------------------------------------------------------------------------------------------------------------------|
| ERRORS.DBF | FPT | | B/P | System errors generated by the Error program |
| FILELIST.DBF | | | | Generated by the Transmission program. Contains information that is used to verify files sent to CDC from the Project during transmission. |
| FILTER.DBF | | | B/P | Filter criteria used on the Filter Control Panel button screen. |
| FOXUSER.DBF | FPT | | | Generated by FoxPro. Contains FoxPro settings. This file can become quite large. It can be deleted and FoxPro will generate it again. |
| FUNDING.DBF | CDX | | B/P | Funding sources, amounts, and balances |
| INVOOPTS.DBF | FPT | | B/P | Options for invoice forms |
| LASTBUP.DBF | | | B/P | Date of the last backup created using the Backup and Pack Databases screen under Utilities Main Menu |
| LASTXMIT.DBF | CDX | | B/P | Date of the last transmission to CDC |
| LOTS.DBF | CDX | | B/P | Summary of Stock (inventory) records, grouped by PIN+vaccine+lot number. Also contains the amount of doses on hand. |
| OWNREF.DBF | | | B/P | VACMAN Setup options; Also contains the last SEEKID number (used by CDC) assigned to vaccine orders when transmitted. |
| PHYSICN.DBF | CDX | | B/P | Physician records associated with Provider records |
| PROVHAS.DBF | CDX | | B/P | Provider Inventory records |
| PROVIDER.DBF | CDX | | B/P | Provider information, including PIN, address, enrollment data |
| PROVMEMO.DBF | CDX, FPT | | B/P | Notes about provider for Project use only; 1 record (memo) for each provider. |
| PROVOPTS.DBF | FPT | | B/P | Provider vaccine ordering form options |
| RCVLIST.DBF | CDX | | B/P | Generated by the Transmission program. Contains information that is used to verify files sent from CDC to the Project during transmission. |
| REPDEF.DBF | FPT | Yes | | Definition of values set in the Criteria screen to produce various reports |
| REPORTS.DBF | CDX | | B/P | List of reports and the date last produced |
| SECTOREF.DBF | | Yes | | Classification codes and descriptions for providers |
| SECURITY.DBF | | | B/P | User ID, password, and user clearance level for each user |
| SETHelp.DBF | | Yes | | Help topics and their location in VACHELPW.DBF |
| STATCODE.DBF | | Yes | | Status codes for vaccine orders transmitted to CDC |
| STATES.DBF | | Yes | | State/territory abbreviations |

APPENDIX D

| | | | | |
|--------------|-------------|-----|-----|------------------------------------------------------------------------------------------------------------------------------------|
| STOCK.DBF | CDX | | B/P | Inventory records for bulk vaccine orders (RECTYPE = 1), Varicella vaccine orders (RECTYPE = 2), and other inventory (RECTYPE = 3) |
| SUBDIV.DBF | CDX | | B/P | Project's jurisdictional subdivision information |
| SUPPLIER.DBF | CDX | | B/P | Vaccine manufacturers |
| TBLINDXS.DBF | | | | Criteria used on the Search and Display Order Control Panel button. |
| VACCBULK.DBF | | | B/P | Bulk order vaccine types |
| VACCFORM.DBF | | Yes | | Formula for 2 age groups (<1 and 1-18 years) used to calculate excess distribution shipments |
| VACCREF.DBF | CDX | | B/P | Vaccine reference information, including types and setup options |
| VACHELPW.DBF | FPT | Yes | | Online help |
| VFORMULA.DBF | | Yes | | Formula for 3 age groups (<1, 1-6, and 7-18 years) used to calculate excess distribution shipments |
| WHATSNEW.DBF | CDX, FPT | | B/P | "What's New" documents that are available bi-weekly; received by the Project during transmission |
| XMITLOG.DBF | FPT | | B/P | Generated by the Transmission program. Contains information of events that happened during transmission. |
| ZIPCODES.DBF | CDX | | B/P | ZIP codes and related information |
